## FROST: A WORK IN PROGRESS

Our vision and focus is to provide a broad platform of architectural elements that both inspire and provide comprehensive design and application solutions.

Our Danish culture of progressive contemporary design is conveyed through our products in a manner that blends design with function, creativity with solutions. Frost embraces the concept that Form is nothing without Function.

Emphasis has been also placed on material, quality, and service.

Frost has been the recipient of International Design Awards and have realized that our company is a Work In Progress that we attribute to the ongoing dialogue with architects worldwide that have been embraced as part of our company's culture. Frost is more than a company: it is a vision and quest for excellence.

## QUADRA SERIES

Handles for furniture, bath furniture and kitchens.

Kitchen accessories. Bathroom accessories.

Wardrobe accessories.

The proportional dimensions 8:5:3 define the QUADRA series as architectural building elements,  
which can be combined into various constructions.

When combined, the clear-cut and stylistically consistent details form a  
characteristic and well-defined system.

The QUADRA series is designed by Bønnelycke mdd.

## BØNNELYCKE MDD

Bønnelycke mdd was established in 1988. Driven by an unsurpressable urge to work constructively and innovatively, Henrik Bønnelycke started his career with the design of lamps, furniture and interior decorating. Quickly, he became known as an unconventional architect with no whims and fancies. His ability to challenge and optimise the manufacturing process itself is to be found in Henrik's original professional background as a toolmaker.

"It could be fun" and "off course it can be done" - are phrases often used in his company. This has resulted in a comprehensive portfolio of projects and designs - spectacle frame design, racing boats, lighting, furniture and buildings to name a few - several of them award winning and patented designs. Bønnelycke mdd is truly a multi disciplinary design company with both national and international experience. They are perfectionists with professional curiosity, and provide a wide variety of design disciplines encompassing architecture and interior design, furniture design and product design to communication assignments, graphic design and web design.

At Bønnelycke mdd they do not design for the sake of it. They believe that design does not hold any values per se. To Bønnelycke, the value of a design emerges when a product has relevance and when it is purchased, used and appreciated - this is why they design.

In Bønnelycke's own words:

"We are comitted to providing our clients with what they pay for - which is their own design !"
